

# Kamloops Skating Club

## CANSkate Registration Package

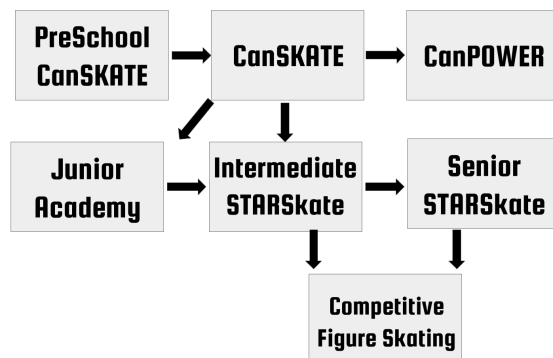

Canada's BEST Skating program

The Kamloops Skate Club (KSC), is a Skate Canada affiliated club and we are proud to offer CANSkate. CANSkate has been designed to fit with Sport Canada's Long Term Athlete Development (LTAD) characteristics. CanSkate has a tested and proven curriculum. It has produced some of the world's best skaters. With Nationally certified coaches it provides the best start in skating for figure skating, hockey, ringette, speed skating and leisure skating. CanSkate promotes fun, fitness and participation throughout its program. This program is designed for all levels of beginners. The Skate Canada program guarantees a minimum of 1:10 ratio, of Program Assistants and Coaches to students. Students are allowed to progress at their own rate throughout the 10 week program. The CanSkate programs are the prerequisite programs for the rest of our clubs program offerings, as shown below in our KSC/Skate Canada Programs flow-chart.

### Requirements for Participation:

- **Skates**
  - Skates that fit are a must- they are crucial to your child's learning. When buying used skates, **watch they still have excellent ankle support** and aren't starting to go soft in the ankles and the blades are nick and rust free. New skates always need to be sharpened before use, otherwise they will not be able to skate in them, as they won't have an edge.
- **CSA Approved helmet are MANDATORY for CanSkate - No bike helmets**
- **Warm clothing** (We are all *HAPPIEST* when we are warm)
  - Mittens (waterproof)
  - Jacket or Warm Sweater
  - Waterproof/water resistant pants or lined jeans
  - Underlayers can add additional warmth
  - Please remember children need to be warm to be happy and at first they will likely spend a fair bit of time on the ice, sitting, lying and trying to get up. Slippery clothing, bulky clothing and hockey mitts etc. may get in the way of their ability to easily get up off the ice and their ultimate success, however - warmth is key to comfort.

### **KAMLOOPS SKATING CLUB & SKATE CANADA PROGRAMS FLOWCHART**

## CANSKATE EXPECTATIONS

All children must have a designated adult that, depending on current provincial health orders, is either in attendance sitting on a designated 'X' **OR** in the parking lot waiting during skating. In times where parents are unable to be in the building (Via Sport Phase 2 vs. Via Sport Phase 3), we will have a signup genius for parents to volunteer week to week; one parent as a health check volunteer that take parents phone numbers to be in the building to call parents when or if they are needed. As well as, two parents to walk skaters from the ice to the door of the designated changeroom for skaters and back after they are done; if skaters need assistance that is not able to be provided in a distanced way, then the volunteers will call the parent into the building to help, and then parent will exit the building after assisting.

## VOLUNTEER HOURS/FUNDRAISING

Our Club is a non-profit run by a volunteer board. We ask that all our families take up any fundraising activity and volunteer when they can. We cannot run without your assistance, as we are a fully volunteer driven organization run by skating parents, this participation during COVID-19 this is more essential to our organization than ever.

CANSkate Program Class Rate    \$13.50/class  
45 minutes per lesson

## SKATE CANADA FEES:

All Kamloops Skating Club members pay a \$50 per year Skate Canada Fee, as a part of our \$43 membership fee. This allows Skate Canada to operate, and to create programs like CanSkate. Skate Canada provides an affordable coach training program and gives clubs direction on the best ways to teach skaters of all levels to be their best.

## SKATE CARE

Skates should be sharpened, blades free of rust and nicks. To keep them this way we recommend keeping a towel or rag with the skates, drying them after every skate and sharpening when needed. Blade guards may be something you may want to look into to keep the integrity of the skate blades as pristine as possible and it helps teach children proper skate care early.
